NOTES

TUI AG Notes for financial year 2017

As at 30 September 2017, TUI AG, Berlin and Hanover, is a large corporation as defined by section 267 of the German Commercial Code (HGB). The Company is registered in the commercial registers of the district courts of Berlin-Charlottenburg (HRB 321) and Hanover (HRB 6580).

The annual financial statements of TUI AG are prepared in accordance with the provisions of the German Commercial Code (HGB) in the version of the Accounting Directive Implementation Act (BilRUG), taking account of the German Stock Corporation Act (AktG).

The income statement is prepared in accordance with the nature of expense method pursuant to section 275 (2) (HGB).

Due to the first-time application of the Accounting Directive Implementation Act, some items of the income statement are not comparable with the prior year's numbers. Detailed information on potential impacts is provided in the Notes to the income statement.

Individual items in the statement of financial position and income statement of TUI AG are grouped together in the interests of clear presentation. These items are reported separately in the Notes, together with the necessary explanations.

The financial year of TUI AG comprises the period from 1 October of any one year until 30 September of the subsequent year.

Accounting and measurement

The accounting and measurement methods and the classification applied in the previous year were retained in the financial year under review except from the effects of the first-time application of the Accounting Directive Implementation Act (BilRUG).

Purchased intangible assets are measured at cost and amortised on a straight-line basis over the expected useful life of up to five years, for trademark rights up to fifteen years. Self-generated intangible assets are not capitalised.

Property, plant and equipment are measured at cost to purchase or cost to produce and depreciated over their expected useful life. For additions effected since financial year 2009/10, depreciation is calculated on a straight-line basis.

Movable depreciable assets with costs to purchase of €150 to €410 are fully depreciated in the year in which they are purchased. Until financial year 2016, movable depreciable assets with costs to purchase of €150 to €1,000 had been grouped into collective annual items and depreciated over a period of five years in line with section 6 (2a) of the German Income Tax Act (EStG.)

Scheduled depreciation and amortisation are based on economic useful lives.

Fixed assets which, at the balance sheet date, have a lower market value likely to be of a lasting nature are impaired accordingly.

Shares in Group companies, participations and other investments are carried at the lower of cost to purchase or fair value. Impairments are only recognised where losses are long-term.

The requirement to reverse write-downs is met by means of write-backs.

Inventories are measured at the lower of cost to purchase or market value as at the balance sheet date.

Receivables and other assets are recognised at the lower of nominal or fair values at the balance sheet date. Non-interest bearing long-term receivables are carried at their present values. For these items, all identifiable individual risks are accounted for by means of appropriate value adjustments. Bad debt is written off.

Marketable securities are carried at the lower of cost to purchase or fair value at the balance sheet date.

Cash and bank balances are carried at nominal values.

Hedged foreign currency receivables and liabilities are recognised based on the hedging rate. Current unhedged currency items are recognised at the average spot exchange rate at the balance sheet date. Non-current unhedged currency receivables and liabilities are translated at the average spot exchange rate at the date of the transaction or the closing rate, if lower, in the case of receivables and the closing rate, if higher, in the case of liabilities.

Where liabilities from pension schemes or part-time working schemes for employees approaching retirement are covered by insolvency-protected reinsurance policies or fund investments so that other creditors do not have access, the fair values of the cover assets are eliminated against the fair values of the related liabilities. If liabilities exceed assets, the difference is shown under Provisions. Investments in reinsurance policies are measured at fair value, which corresponds to amortised cost.

Subscribed capital is carried at nominal value.

The special non-taxed item carried is based on the option to transfer book profits, used in prior years before conversion to the German Accounting Law Modernisation Act (BilMoG), and thus includes differences between tax-based and commercial-law depreciation in accordance with section 6b of the German Income Tax Act (EStG).

Provisions for pensions and similar obligations are measured in accordance with the projected unit credit method on the basis of biometric accounting data in Prof. Klaus Heubeck's 2005 G reference tables and discounted at an interest rate of 3.77 % (previous year 4.08 %). Discounting of the pension obligation is no longer based on the seven-year average market interest rate (2.92 %) published by the German Central Bank for an assumed remaining term of 15 years, but on the interest rate change in accordance with section 253 (2) of the German Commercial Code for the past ten years, which was 3.77 % in 2017. In determining the provisions for pensions and similar obligations, annual salary increases of 2.5 % (previous year 2.5 %) and pension increases of 5.25 % every three years (previous year 5.25 %) have been assumed; moreover, an age- and gender-specific fluctuation of 0.0 % to 8.0 % p.a. (previous year 0.0 % to 8.0 %) was applied. The right of choice to use a 15 years remaining term for the calculation of the interest rate was used.

Provisions for taxes and other provisions are calculated on the basis of prudent business judgement principles and reflect all identifiable risks and doubtful obligations. They are measured at the repayable amounts, taking account of expected cost and price increases. Provisions with a remaining term of more than one year are always discounted at the average market interest rate for the past seven financial years corresponding to their remaining term.

Provisions for anniversary bonuses are determined based on a discount rate of 2.91% p.a. (previous year 3.37% p.a.), an age- and gender-specific fluctuation rate of 0.0% to 8.0% p.a. (previous year 0.0% to 8.0% p.a.) and an annual salary increase of 2.5% (previous year 2.5%).

Provisions for liabilities from part-time working schemes for employees approaching retirement are formed in accordance with the block model. The provisions are measured based on a discount rate of 1.53 % (previous year 1.91 %) and in accordance with actuarial principles founded on Prof. Klaus Heubeck's 2005 G reference tables and an annual salary increase of 2.5 % (previous year 2.5 %). The provision for liabilities from part-time working schemes for employees approaching retirement was formed for part-time working schemes for employees reaching retirement already concluded at the balance sheet date and potential future part-time early retirement schemes. They comprise top-up payments and settlement obligations accrued until the balance sheet date by the Company.

Liabilities are carried at the repayable amounts.

Deferred taxes at TUI AG include deferred taxes of Group subsidiaries with which it forms a fiscal unity for income tax determination. The income tax rate applied in measuring deferred taxes is 31.5% (previous year 31.5%) and embraces corporation tax, trade tax and the solidarity surcharge. Deferred tax assets are netted against deferred tax liabilities. The capitalisation option pursuant to section 274 (1) sentence 2 of the German Commercial Code is not used for the overall resulting deferred tax asset.

Provisions are formed for negative fair values of derivative financial instruments where there are no matching transactions with positive fair values and identical volumes and maturities.

The determination of the fair values for optional derivative financial instruments is based on the Black & Scholes model. Measurement of fixed-price transactions is based on the discounted cash flow of the transactions. Measurement of derivatives takes account of interest, price and volatility curves with matching maturities as at the balance sheet date.

Recognised IT systems are used to support measurement of the financial instruments. For quality assurance purposes, the amounts determined for externally concluded transactions are compared and reconciled with figures provided by external counterparties as at the balance sheet date.

All derivative financial instruments are fixed-price or optional over-the-counter (OTC) transactions for which a stock market price cannot be determined. The derivative fuel hedges are performed by means of cash compensation, as the difference between market price and hedge price. Physical delivery is not effected.

In order to recognise derivative fuel hedges in the balance sheet, a measurement unit is formed. Recognition is based on the net hedge presentation method.

Notes to the statement of financial position

(1) Fixed assets

Changes in the individual fixed assets are shown in the statement of changes in assets, indicating depreciation and amortisation for the financial year under review. The statement of changes in assets in annexed to the Notes.

INVESTMENTS

In the period under review, investments rose by a total of €294.1 m.

Additions of shares in Group companies relate in particular to the acquisitions of TUI Canada Holdings Inc from two subsidiaries in the UK worth €404.1 m and of a Greek hotel company worth €15.8 m. Moreover, capital increases of €29.8 m resulted in an increase in financial investments. An opposite effect was caused by the repayment of the capital reserve at TUI-Hapag Beteiligungs GmbH of €468.0 m.

Impairments of shares in related companies and shareholdings worth €58.1 m were effected in the financial year under review.

The increase in loans to related companies of €370.4m results from non-current loans to subsidiaries.

Securities held as fixed assets include an amount of ≤ 0.5 m (previous year ≤ 0.7 m) for the statutory protection of the obligations from part-time early retirement schemes of two subsidiaries.

(2) Receivables and other assets

Receivables and other assets		
€ '000	30 Sep 2017	30 Sep 2016
Trade accounts receivable	1,222	
of which with a remaining term of more than 1 year		_
Receivables from Group companies	1,187,819	1,368,652
of which with a remaining term of more than 1 year		
Receivables from companies in which shareholdings are held	3,852	1,419
of which with a remaining term of more than 1 year		
Other assets	51,742	54,387
of which with a remaining term of more than 1 year	1,000	1,000
	1,244,635	1,424,458

The recognition of trade accounts receivable is attributable to the first-time application of the Accounting Directive Implementing Act.

Receivables from Group companies and companies in which stakes are held include minor trade receivables at the respective balance sheet date.

The decline in receivables from Group companies is mainly attributable to the conversion of current financial receivables to non-current loans to subsidiaries.

The addition in receivables from companies in which shareholdings are held is mainly due to a current loan to a hotel company.

Investments in reinsurance policies with the purpose of hedging pension obligations, pledged to the beneficiary without other creditors having right to access, are offset against the underlying liabilities at an amount of \leq 47.9 m (previous year \leq 56.0 m).

The decrease in other assets mainly results from the payment received for a purchase price allocation of €9.0 m and the repayment of loan receivables. An opposite effect is caused by the significant year-on-year rise in tax assets.

(3) Marketable securities

The money market funds shown under this item serve the short-term investment of free cash and cash equivalents.

(4) Cash in hand and bank balances

This item consists almost exclusively of bank balances, primarily in the form of time deposits and overnight money.

Bank balances rose by €402.0 m year-on-year. The increase is attributable to dividend payments by subsidiaries and primarily the sale of the stake in Hapag-Lloyd AG. Bank balances include an amount of €142.9 m pledged as security for pension plans in the UK.

(5) Prepaid expenses

Prepaid expenses		
€ ′000	30 Sep 2017	30 Sep 2016
Other prepaid expenses	738	776

Other prepaid expenses mainly comprised prepaid insurance premiums for the period from 2018 to 2026. To a minor extent, prepaid expenses also include prepaid services.

(6) Subscribed capital

TUI AG's subscribed capital consists of no-par value shares, each representing an identical share in the capital stock. The proportionate share in the capital stock attributable to each individual share is around €2.56. As the capital stock is divided into registered shares, the shareholder data is listed in the share register.

The subscribed capital of TUI AG is registered in the commercial registers of the district courts of Berlin-Charlottenburg and Hanover. In the financial year under review, it rose due to the issuance of 348,713 employee shares. As a result, subscribed capital comprised 587,386,900 shares at the end of the financial year. It grew by $\leq 0.9 \,\mathrm{m}$ to $\leq 1,501.6 \,\mathrm{m}$.

The Annual General Meeting on 14 February 2017 authorised the Executive Board of TUI AG to acquire own shares of up to 5% of the capital stock. This authorisation will expire on 13 August 2018. To date, the option to acquire own shares has not been used.

CONDITIONAL CAPITAL

The Annual General Meeting on 9 February 2016 resolved to create conditional capital of €150.0 m for the issue of bonds. The issue of bonds with conversion options or warrants, profit-sharing rights and income bonds (with or without fixed terms) is limited to a total nominal volume of up to €2.0bn under this authorisation, which will expire on 8 February 2021.

As at 30 September 2017, TUI AG had total conditional capital of €150.0 m.

AUTHORISED CAPITAL

The Annual General Meeting on 13 February 2013 resolved new authorised capital for the issue of employee shares worth €10.0 m. The Executive Board of TUI AG has been authorised to use this capital in one or several transactions to issue employee shares against cash contribution by 12 February 2018. 348,713 new employee shares were issued in the completed financial year, so that authorised capital totalled around €7.4 m at the balance sheet date.

The General Meeting on 28 October 2014 resolved to create conditional capital of €18.0 m for the issue of new shares against non-cash contribution in order to be able to service TUI Travel share awards granted by TUI Travel to its employees with new shares in TUI AG. The authorisation for this approved capital has not been used to date and will be terminated early as there are no longer any share awards.

The Annual General Meeting on 9 February 2016 resolved to authorise the issue of new registered shares against cash contribution of up to a maximum of €150.0 m. This authorisation will expire on 8 February 2021.

The Annual General Meeting on 9 February 2016 also resolved to create authorised capital for the issue of new shares against cash or non-cash contribution of €570.0 m. The issue of new shares against non-cash contribution is limited to €300.0 m. The authorisation for this capital will expire on 8 February 2021.

Unused authorised capital thus totals around €745.4 m (previous year around €746.3 m).

(7) Capital reserves

Capital reserves include transfers from share premiums. They also comprise amounts from conversion options and warrants for the purchase of shares in TUI AG generated by bond issues. In addition, premiums from the exercise of conversion options and warrants were transferred to the capital reserves. In the financial year under review, the capital reserves rose by a total of ≤ 6.1 m due to the issue of employee shares and share-based compensation.

(8) Revenue reserves

Revenue reserves solely consist of Other revenue reserves. There are no provisions in the Articles of Association on the formation of reserves.

(9) Profit available for distribution

Net profit for the year totals €741,7 m. Taking account of profit carried forward of €454.1 m, the profit available for distribution amounts to €1,195.8 m. A proposal will be submitted to the Annual General Meeting to use the profit available for distribution from the period under review to pay a dividend of €0.65 per no-par value share and carry the amount of €814.0 m remaining after deduction of the dividend total of €381.8 m forward on new account.

(10) Special non-taxed item

The special non-taxed item of \le 0.1 m (previous year \le 0.1 m) includes tax-related depreciation of fixed assets effected in previous years in accordance with section 6b of the German Income Tax Act.

(11) Pension provisions

Elimination of the assets from reinsurance policies (\leq 47.9 m) against the gross value of the pension provisions (\leq 183.9 m) results in a liability of \leq 136.0 m as at the balance sheet date.

(12) Other provisions

Other provisions		
€ ′000	30 Sep 2017	30 Sep 2016
Tax provisions	196,120	176,124
Other provisions	130,389	169,881
	326,509	346,005

Tax provisions exist for income and sales taxes in Germany and abroad.

The decrease in Other provisions mainly results from the use of provisions for travel insurance formed in prior years and from lower transfers to the provisions for invoices outstanding. Moreover, use was made of most of the provisions for former Executive Board members formed in the prior year.

This item also includes provisions for staff costs, for operational risks and investment risks and, to a minor extent, hedges on behalf of tourism companies at the balance sheet date.

Insolvency-protected non-current investments with a fair value of \leq 0.1 m (previous year \leq 0.1 m) for securing part-time working scheme credits for employees approaching retirement were eliminated against corresponding provisions of \leq 0.4 m (previous year \leq 0.4 m).

An amount of €96.6 m (previous year €139.9 m) of Other provisions has a remaining term of up to one year, €212.9 m (previous year €193.2 m) a remaining term of one to five years and €17.0 m (previous year €12.9 m) a remaining term of more than five years.

In October 2016, TUI AG issued an unsecured bond worth €300.0 m maturing on 1 October 2021. The interest coupon is 2.125 % per annum. TUI AG used the proceeds from the issue of this bond to call a five-year bond issued in September 2014 and redeem it in October 2016 ahead of its due date.

Liabilities to Group companies and companies in which interests are held include minor trade payables as at the respective balance sheet date.

In the wake of intercompany sales of shareholdings and the sale of business shares in Travelopia Group, Group companies have included their proceeds in TUI AG's cash pool. These effects resulted in an increase in liabilities to Group companies, which was offset, in particular, by the repayment of the capital reserve in TUI Hapag-Beteiligungs GmbH.

In September 2014, TUI AG signed a syndicated credit facility. The facility has a credit line of €1.75bn (including a tranche of €215.0 m for a letter of credit facility) and is available to TUI AG for general corporate financing purposes. It carries a floating interest rate which depends on the short-term interest rate level (EURIBOR or LIBOR) plus a margin. In December 2015, TUI AG signed an agreement with the banking consortium to extend the maturity of this credit facility until December 2020. In the period under review, TUI AG signed a further agreement with the banking consortium to extend the maturity of this credit facility until July 2022. Within the completed financial year, TUI AG used parts of this credit line. At the balance sheet date, no liability existed from this facility.

As in the previous year, the other liabilities shown at the balance sheet date were not secured by rights of lien or similar rights.

(14) Deferred income

Deferred income		
€ ′000	30 Sep 2017	30 Sep 2016
Other deferred income	100	

Deferred income consists of income received from guarantee fees relating to the next financial year passed on.

(15) Contingent liabilities

Contingent liabilities		
€ '000	30 Sep 2017	30 Sep 2016
Liabilities under guarantees	7,062,922	5,928,700
Liabilities under warranties	23	24
	7,062,945	5,928,724
of which to Group companies	6,961,403	5,619,218

TUI AG has taken over guarantees and warranties on behalf of subsidiaries and third parties, mainly serving the settlement of ongoing business transactions and the collateralisation of loans. The considerable increase in guarantee commitments by TUI AG to Group companies mainly results from the provision of a guarantee for the benefit of the Civil Aviation Authority in the UK.

Based on our experiences the guarantees and warranties taken over by TUI AG are not expected be used, since the companies will discharge the underlying liabilities.

(16) Other financial commitments

- The state of the	30 Sep 2017	
€′000	30 Sep 2017	30 Sep 2016
Lease, rental and leasing	41,295	44,170
Other financial commitments	178	626
	41,473	44,796
up to 1 year	3,654	3,944
1–5 years	12,358	12,434
more than 5 years	25,461	28,418
of which to Group companies	76	66

The commitments from lease, rental and leasing contracts mainly comprise future rent payments for the administrative building.

At the balance sheet date, Other financial commitments primarily comprise commitments to IT and telecommunications companies.

(17) Derivative financial instruments

Derivative financial instrume	nts as at 30 Sep 2017
-------------------------------	-----------------------

		Fair values	
€ ′000	Nominal volume	positive	negative
Currency hedges	706,635	8,459	8,876
of which with Group companies	206,252	7,242	381

of which with Group companies	32,193	4,697	965
Interest rate hedges	150,000	_	_
of which with Group companies			_

The fuel hedges relate to bunker requirements for cruise ships.

Dravicione	for nogative	market values	in athor	nrovicione
Provisions	tor negative	market values	in otner	provisions

€ '000	30 Sep 2017	30 Sep 2016
Currency hedges	8,876	5,126
	8,876	5,126

For the fuel hedges, the negative fair values of \leq 7.3 m were matched by transactions with identical amounts and maturities with positive fair values (measurement units), carried on the basis of the net hedge presentation method. The goal is to hedge fuel prices for up to 80% of the planned exposure. The time to maturity of the hedges is up to 48 months. These hedges are micro- and macro hedges.

Notes to the income statement

(18) Turnover by geographical region

Geographical breakdown of turnover	
	1 Oct 2016-
€′000	30 Sep 2017
Germany	17,704
of which with Group companies	13,189
EU (excl. Germany)	25,780
of which with Group companies	1,883
other countries	1,883
	45,367

Due to the first-time application of the Accounting Directive Implementing Act (BilRUG) in financial year 2017, the turnover recognised is not comparable with the amount shown in the prior year. If the new definition of turnover is applied to the prior year, this results in a figure of €35.2 m.

(19) Other operating income

Other operating income		
	1 Oct 2016-	1 Oct 2015 –
€ '000	30 Sep 2017	30 Sep 2016
Reversal of special non-taxed item	3	415
Miscellaneous other operating income	392,607	636,576
	392,610	636,991

Miscellaneous other operating income mainly includes gains on exchange of €269.3 m (previous year €449.0 m), which went hand in hand with economic losses on exchange of €253.4 m (previous year €453.8 m) carried under Other operating expenses.

This item also includes income from the intercompany elimination of services of €87.8 m (previous year €121.3 m).

Other operating income also includes income from the reversal of provisions no longer required and income from the sale of investments.

(20) Cost of materials

Cost of materials	
	1 Oct 2016-
€ ′000	30 Sep 2017
Cost of purchased services	7.60

In the wake of the first-time application of the Accounting Directive Implementing Act (BilRUG) for financial year 2017, the expense carried along with turnover is carried in the expenses for services received. If BilRUG had been applied in the prior year, this would have resulted in additional expenses worth $\le 6.7 \,\mathrm{m}$.

(21) Personnel costs

Personnel costs		
	1 Oct 2016-	1 Oct 2015 –
€ ′000	30 Sep 2017	30 Sep 2016
Wages and salaries	42,247	46,665
Social security contributions, pension costs and benefits	7,689	3,684
of which pension costs	4,534	1,745
	49,936	50,349

Pension costs mainly rose due to transfers to pension provisions. The decline in wages and salaries is mainly attributable to one-off expenses for Board members, carried in the prior year.

(22) Depreciation/amortisation

Depreciation/amortisation		
G/000	1 Oct 2016 –	1 Oct 2015 –
€ '000	30 Sep 2017	30 Sep 2016
Amortisation of intangible assets and depreciation of property, plant and equipment	937	455

(23) Other operating expenses

Other operating expenses		
€ '000	1 Oct 2016 – 30 Sep 2017	1 Oct 2015 – 30 Sep 2016
Miscellaneous other operating expenses	500,434	762,861

This item comprises in particular expenses for exchange losses of €253.4 m (previous year €453.8 m), carried alongside exchange gains of €269.3 m (previous year €449.0 m) shown under Other operating income.

This item also includes expenses for the intercompany elimination of services of \leq 75.2 m (previous year \leq 99.2 m), which went hand in hand with income from the rebilling of expenses to other Group companies of almost the same amount, carried under Other operating income.

Moreover, expenses were also incurred for financial and monetary transactions, fees, charges, service fees and other administrative costs.

(24) Income from investments

Income from investments		
	1 Oct 2016-	1 Oct 2015 –
€ '000	30 Sep 2017	30 Sep 2016
Income from participations	689,161	282,129
of which from Group companies	588,999	217,985
Income from profit transfer agreements	267,575	151,869
of which from Group companies	267,575	151,869
Expenses relating to losses taken over	-23,440	-80,561
of which from Group companies	-23,440	-80,561
	933,296	353,437

The increase in net income from investments was mainly driven by the distribution of profits by TUI Travel Ltd. and TUI Cruises GmbH. Net income from profit transfer agreements included income from profit transfers from hotel companies and companies allocable to central operations. The increase mainly resulted from the profit transfer from TUI-Hapag Beteiligungs GmbH. The expenses for losses taken over mainly relate to Leibniz-Service GmbH and TUI Beteiligungs GmbH.

(25) Write-down of investments

In the period under review, write-downs of investments worth \leq 58.1 m were effected (previous year \leq 3.7 m). They mainly relate to a subsidiary carried under central operations and a Turkish hotel shareholding.

(26) Interest result

Interest result		
	1 Oct 2016-	1 Oct 2015-
€ ′000	30 Sep 2017	30 Sep 2016
Income from other securities and long-term loans	15,465	4,706
of which from Group companies	15,465	4,706
Other interest and similar income	40,346	38,197
of which from Group companies	34,526	32,914
Interest and similar expenses		-67,577
of which from Group companies	-4,345	-4,462
	8,694	-24,674

The development of the interest result was primarily driven by the decline in interest expenses to non-Group third parties. Interest expenses declined above all due to the refinancing of a bond issued in September 2014 with an annual interest coupon of 4.5% by a new bond carrying an annual interest coupon of 2.125% as well as lower use of a syndicated credit facility.

The increase in income from other securities and loans carried as financial investments is mainly attributable to an increase in TUI AG's non-current loans to Group companies.

Interest expenses include expenses for the compounding of provisions for pensions and other non-current provisions totalling \leq 13.6 m (previous year \leq 15.0 m) after elimination of interest income of \leq 0.6 m (previous year \leq 2.2 m) from the reinsurance policies serving as cover assets.

(27) Taxes

Taxes		
	1 Oct 2016 –	1 Oct 2015-
€ '000	30 Sep 2017	30 Sep 2016
Taxes on income	15,728	6,674
Other taxes	5,569	1,795
	21,297	8,469

Income tax expenses result from advance payments made and the formation of provisions for domestic and foreign income taxes.

Income tax expenses do not include deferred taxes. Receivables and intangible assets initially result in deferred tax liabilities which, however, are eliminated in full against deferred tax assets from other provisions and pension provisions. In accordance with the capitalisation option under section 274 (1) sentence 2 of the German Commercial Code, deferred tax assets exceeding the netted tax assets and liabilities (primarily from liabilities and provisions) are not recognised.

EXPENSES AND INCOME ATTRIBUTABLE TO PRIOR PERIODS

Income of \leq 41.6 m and expenses of \leq 58.1 m are attributable to prior financial years and carried under Other operating income and expenses.

Income attributable to prior periods relates in particular to income from intercompany elimination of services for prior years and income from the reversal of provisions no longer required.

Expenses attributable to prior periods mainly relate to impairments of receivables and subsequent charges for intercompany elimination of services.

Other Notes

Difference according to section 253 (6) of the German Commercial Code (HGB)

The difference according to section 253 (6) of the German Commercial Code accounts for €14.8 m in the financial year under review (previous year €11.8 m). The payout block does not apply as disposable reserves (€1,741.6 m) exceed the amount not available for distribution under the payout block.

Related persons

In financial year 2017, all transactions with related parties were concluded on an arm's length basis.

Employees

The average headcount for the financial year under review is 252 (previous year 167), including fourteen executives (previous year twelve). Trainees are not included in this figure.

Remuneration for former Executive Board members and their surviving dependants

Remuneration for former Executive Board members and their surviving dependants totalled €13.5 m (previous year €4.9 m) in the financial year under review. Provisions for pension obligations for former Executive Board members and their surviving dependants amounted to €55.1 m (previous year €62.8 m).

Disclosures of the relevant amounts for individual Board members and further details on the remuneration system are provided in the Remuneration Report included in the Management Report.

Total auditors' fees

For the level and breakdown of total auditors' fees for the financial year under review in accordance with section 285 (17) of the German Commercial Code, we refer to the corresponding information in the Notes to the consolidated financial statements.

Group affiliation

TUI AG, the parent company of the TUI AG Group, prepares the consolidated financial statements for the largest and smallest group of companies as required by section 315a of the German Commercial Code in line with international accounting standards (IFRS). TUI AG's consolidated financial statements and consolidated management report are electronically submitted to the operator of the federal gazette in line with section 325 of German Commercial Code and released to the general public. They are available on the Internet at www.bundesanzeiger.de and at www.unternehmensregister.de under the key words TUI AG/TUI Aktiengesellschaft. They are also published at www.tui-group.com/de.

NOTES_____ Other Notes 19

Shareholder structure

In financial year 2017 and in prior years, TUI AG was notified of changes in equity interests held by third parties pursuant to section 21 (1) of the German Securities Trading Act, published these notifications pursuant to section 26 (1) sentence 1 of the German Securities Trading Act and communicated them to the business register. Notifications still applicable as at 30 September 2017 are listed below in short form.

(+)

More detailed information is available on the Company's website (www.tuigroup.com).

ALEXEY A. MORDASHOV

Alexey Mordashov, Russia, notified us that the voting rights in TUI AG attributable to him exceeded the 20 % threshold on 12 December 2016 and amounted to 20.01 % of the voting rights in TUI AG (117,484,579 voting rights) as at that date. All voting rights are attributable to him in line with section 22 of the German Securities Trading Act.

LUIS RIU AND CARMEN RIU

Luis Riu and Carmen Riu, Spain, notified us that their voting shares in TUI AG fell below the threshold value of 5% on 11 December 2014 for each of them and now stand at 3.72% (19,854,616 voting shares) for each of them. These 3.72% are attributable to each of them due to the joint exercise of control over RIU HOTELS S.A. and SARANJA S.L., each located at Playa de Palma, Mallorca, Spain, pursuant to section 22 (1) sentence 1 no. 1 of the German Securities Trading Act (the voting shares attributable to them relate to the same shareholding).

STANDARD LIFE ABERDEEN PLC

Standard Life Aberdeen Plc, Edinburgh, United Kingdom (UK), notified us that its voting shares in TUI AG exceeded the threshold of 5% on 14 August 2017 and amounted to 6.85% (40,232,046 voting rights) as at that date. All voting rights are attributable to Standard Life Aberdeen Plc pursuant to section 22 of the German Securities Trading Act.

ARROW BIDCO LIMITED

Arrow Bidco Limited, London, UK, notified us that its voting shares in TUI AG fell below the threshold of 3 % on 11 January 2017 and amounted to 0 % (0 voting rights) as at that date.

ARTEMIS INVESTMENT MANAGEMENT LLP

Artemis Investment Management LLP, London, UK, notified us that its voting shares in TUI AG fell below the threshold of 3% on 17 May 2017 and amounted to 2.78% (16,317,029 voting rights) as at that date. All voting rights are attributable to Artemis Investment Management LLP, London, UK, pursuant to section 22 of the German Securities Trading Act.

BLACKROCK, INC.

BlackRock Inc., Wilmington, DE, USA, notified us that its voting shares in TUI AG amounted to 5.29 % (31,032,630 voting shares) on 18 April 2016. All voting shares are attributable to BlackRock Inc. pursuant to section 22 of the German Securities Trading Act. BlackRock, Inc., also notified us that it owned instruments (securities lending) pursuant to section 25 (1) no. 1 of the German Securities Trading Act for voting shares of 0.02 % (105,381 voting shares) and instruments (Contract for Difference) pursuant to section 25 (1) no. 2 of the German Securities Trading Act for voting shares of 0.28 % (1,658,449 voting shares) on 18 April 2016. In total, the company thus notified us of voting shares of 5.59 %.

List of shareholdings of TUI AG pursuant to section 285 (11), (11a) and (11b) of the German Commercial Code

CORPORATE GOVERNANCE REPORT

For our Corporate Governance Report (corporate governance statement pursuant to section 289a of the German Commercial Code and Declaration of Compliance with the Corporate Governance Code pursuant to section 161 of the German Stock Corporation Act in combination with section 3.10 of the German Corporate Governance Code), we refer to our website at:

www.tuigroup.con/en-en/investors/reports-and-presentations

As part of the combined Management Report of TUI AG and the TUI Group, the Corporate Governance Report is included in our printed Annual Report 2017 for the TUI Group and is also available online from the microsite:

http://annualreport2017.tuigroup.com

RESPONSIBILITY STATEMENT BY MANAGEMENT

To the best of our knowledge, in accordance with the applicable reporting principles, the financial statements give a true and fair view of the assets, liabilities, financial position and profit or loss of the entity, and the management report, which is combined with the Group management report of TUI AG, includes a fair review of the development and performance of the business and the position of the entity, together with a description of the principal opportunities and risks associated with the expected development of the entity.

INDEPENDENT AUDITOR'S REPORT

To TUI AG, Berlin and Hanover

Report on the audit of the Financial Statements and the Combined Management Report

Audit opinions

We have audited the financial statements of TUI AG, Berlin and Hanover, which comprise the balance sheet as at 30 September 2017, the income statement for the financial year from 1 October 2016 to 30 September 2017 and the Notes to the financial statements, including the presentation of the accounting and valuation methods. In addition, we have audited the management report combined with the Group management report of TUI AG, Berlin and Hanover, for the financial year from 1 October 2016 to 30 September 2017. In conformity with the German legal regulations, we have not audited the section "Corporate Governance Report/Declaration on Corporate Governance" contained in the combined management report with regard to their content. Furthermore, we did not audit the section "Non-financial Group Declaration" in the combined management report.

In our opinion, based on our knowledge obtained during the audit,

- the accompanying financial statements comply in all material respects with the provisions of German commercial law
 applicable to stock corporations and give, in accordance with German generally accepted accounting principles, a true
 and fair view of the Company's net assets and financial position as at 30 September 2017 as well as its results of
 operations for the financial year from 1 October 2016 to 30 September 2017; and
- the accompanying combined management report as a whole provides a suitable view of the Company's position. In
 all material respects, this combined management report is consistent with the financial statements, complies with
 the German legal requirements and suitably presents the opportunities and risks of future development. Our audit
 opinion on the combined management report does not extend to the contents of the above-mentioned section
 "Corporate Governance Report/Declaration on Corporate Governance" or to the section "Non-financial Group Declaration"

Pursuant with Section 322 (3) Sentence 1 German Commercial Code (HGB), we state that our audit has not led to any reservations with respect to the propriety of the financial statements and the combined management report.

Basis for the audit opinions

We conducted our audit of the financial statements and the combined management report in accordance with Section 317 German Commercial Code (HGB) and the EU Audit Regulation (No. 537/2014; hereinafter "EU Audit Regulation") and German generally accepted standards for the audit of financial statements promulgated by the Institut of Public Auditors in Germany [Institut der Wirtschaftsprüfer (IDW)]. We have conducted the audit of the financial statements also in accordance with International Standards on Auditing (ISA). Our responsibilities pursuant under these require-

Independent auditor's report 37

ments, principles and standards are further described in the section "Auditor's responsibility for the audit of the financial statements and the combined management report" of our report. We are independent of the company in accordance with European and German commercial law and rules of professional conduct and we have fulfilled our other ethical responsibilities applicable in Germany in accordance with these requirements. In addition, pursuant to Article 10 (2) lit. f EU Audit Regulation, we declare that we have not provided any prohibited non-audit services pursuant to Article 5 (1) EU Audit Regulation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the financial statements and the combined management report.

Key audit matters in the audit of the financial statements

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements for the financial year from 1 October 2016 to 30 September 2017. These matters were addressed in the context of our audit of the financial statements as a whole and in forming our audit opinion thereon, but we do not provide a separate opinion on these matters.

In the following we present the key audit matters in our view:

Recoverablility of the long-term financial assets

Our presentation of this key audit matter has been structured as follows:

- Description of issue (including reference to associated disclosures in the financial statements),
- · Auditor's response.

Recoverability of the long-term financial assets

DESCRIPTION OF THE ISSUE

In its financial statements as at 30 September 2017, TUI AG discloses long-term financial assets amounting EUR 7,078.9 million. Of this, EUR 6,285.5 million relate to shares in affiliated companies and EUR 324.3 million to investments.

The long-term financial assets are tested for impairment by the Company at least once a year. Valuation is by means of a valuation model based on the Discounted Cash Flow method.

The result of this valuation depends to a great extent on the estimate of future cash inflows and the discount rate used.

The valuation is accordingly fraught with considerable uncertainty. Against this background, we believe that this issue is of particular importance within the framework of our audit.

The Company's disclosures on long-term financial assets are contained in the "Net assets" section of the combined management report.

AUDITOR'S RESPONSE

We investigated the process of verifying the recoverability of the long-term financial assets and conducted an audit of the accounting-relevant controls contained therein.

Specifically, we convinced ourselves of the appropriateness of the future cash inflows used in the calculation. For this, among other things we compared this information with the current budgets contained in the three-year plan adopted by the Management Board and approved by the Supervisory Board, and checked it against general and industry-specific market expectations.

Since even relatively small changes in the discount rate can have a material effect on the amount of the business value determined in this way, we also focused on examining the parameters used to determine the discount rate used, including the Weighted Average Cost of Capital, and analysed the calculation algorithm.

OTHER INFORMATION

The Management Board is responsible for the other information. The other information comprises:

- Corporate Governance Report/Declaration on Corporate Governance
- the assurance on the financial statements pursuant to Section 264 (2) Sentence 3 German Commercial Code (HGB) and the assurance on the management report pursuant to Section 289 (1) Sentence 5 German Commercial Code (HGB) and
- the remaining parts of the annual report, with the exception of the audited financial statements and the combined management report.

Our audit opinions on the financial statements and the combined management report do not extend to cover the other information, and accordingly, we do not issue an audit opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information and, in doing so, to consider whether the other information

- is materially inconsistent with the financial statements, the combined management report or our knowledge obtained in the audit, or
- otherwise appears to be substantially misstated.

RESPONSIBILITY OF THE MANAGEMENT AND SUPERVISORY BOARDS FOR THE FINANCIAL STATEMENTS AND THE COMBINED MANAGEMENT REPORT

The Management Board is responsible for the preparation of financial statements, which comply with the German commercial law provisions applicable to stock corporations in all material respects and that the financial statements give a true and fair view of the net assets, financial position and results of operations of the Company while observing German generally accepted accounting principles. In addition, the Management Board is responsible for the internal controls it has identified as necessary in order with German generally accepted accounting principles to enable the preparation of financial statements that are free from material misstatements, whether intentional or unintentional.

In preparing the financial statements, the Management Board is responsible for assessing the Company's ability to continue as a going concern. Furthermore, it has the responsibility to disclose matters related to going concern, as applicable. In addition, it is responsible for using the going-concern basis of accounting, unless this is contrary to factual or legal circumstances.

In addition, the Management Board is responsible for the preparation of the combined management report, which as a whole provides a suitable view of the Company's position, is consistent with the financial statements in all material respects, complies with the German legal regulations and suitably presents the opportunities and risks of future development. Furthermore, the Management Board is responsible for such arrangements and measures (systems) which it have deemed necessary in order to enable the preparation of a combined management report in accordance with the German legal regulations to be applied and to furnish sufficient and appropriate evidence for the statements in the combined management report.

The Supervisory Board is responsible for overseeing the Company's financial reporting process for the preparation of the financial statements and the combined management report.

Independent auditor's report 39

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE FINANCIAL STATEMENTS AND THE COMBINED MANAGEMENT REPORT

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and whether the combined management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the financial statements and with the findings of the audit, is in accordance with the German legal regulations, and appropriately presents the opportunities and risks of future development, as well to issue an auditor's report that includes our audit opinions on the financial statements and the combined management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Section 317 German Commercial Code (HGB) and EU Audit Regulation and German generally accepted standards for the audit of financial statements promulgated by the Institute of Public Auditors in Germany (IDW) and subject to supplementary compliance with ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements and the combined management report.

As part of an audit, we exercise professional judgement and maintain professional scepticism. We also

- identify and assess the risks of material misstatements in the financial statements and the combined management report, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide as a basis for our audit opinions. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- obtain an understanding of internal control relevant to the audit of the financial statements and the arrangements
 and measures relevant to the audit of the combined management report in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these
 systems.
- evaluate the appropriateness of the accounting policies used by the Management Board and the reasonableness of accounting estimates and related disclosures made by the Management Board.
- conclude on the appropriateness of the Management Board's use of the going-concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that maycast significant doubt on the Company's ability to continue as a going concern. If we conclude that there is a material uncertainty, we are required to draw attention in our auditor's report to the related disclosures in the financial statements and the combined management report, or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures and
 whether the financial statements represent the underlying transactions and events in a manner that the financial
 statements give a true and fair view of the net assets and financial position as well as the results of operations of the
 Company in accordance with German principles of proper accounting.
- evaluate the consistency of the combined management report with the financial statements, its legal consistency and the view provided of the Company's position.
- perform audit procedures on the forward-looking information presented by the Management Board in the combined
 management report. On the basis of sufficient appropriate audit evidence, we particularly evaluate the significant
 assumptions underlyin the forward-looking information by the Management Board's and evaluate the correct derivation of forward-looking information from these assumptions. We do not issue an independent opinion on the forwardlooking information or on the underlying assumptions. There is a significant unavoidable risk that future events will
 differ materially from the forward-looking information.

We communicate with those charged with governance, among other matters, the planned scope and timing of the audit and significant audit findings, including any deficiencies in internal control, which we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current reporting period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matters.

Other legal and regulatory requirements

Other information pursuant to Article 10 EU Audit Regulation

We were appointed by the annual general meeting on 14 February 2017 to audit the financial statements. We were engaged by the Supervisory Board on 27 February/19 March 2017. We have been engaged as the auditors of TUI AG, Berlin and Hanover, since the financial year 2016/2017.

We confirm that the audit opinions contained in this auditor's report are consistent with the additional report to the audit committee pursuant to Article 11 EU Audit Regulation ("Prüfungsbericht").

Responsible Auditor

The auditor responsible for the audit is Dr Hendrik Nardmann.
